AG NEW MEXICO, FARM CREDIT SERVICES, ACA MANAGEMENT'S DISCUSSION AND ANALYSIS

The following commentary reviews the financial performance of the Ag New Mexico, Farm Credit Services, ACA (Agricultural Credit Association), referred to as the Association, for the quarter ended March 31, 2021. These comments should be read in conjunction with the accompanying financial statements and the December 31, 2020 Annual Report to Stockholders.

The Association is a member of the Farm Credit System (System), a nationwide network of cooperatively owned financial institutions established by and subject to the provisions of the Farm Credit Act of 1971, as amended, and the regulations of the Farm Credit Administration (FCA) promulgated thereunder.

The consolidated financial statements comprise the operations of the ACA and its wholly-owned subsidiaries. The consolidated financial statements were prepared under the oversight of the Association's audit committee.

Significant Events:

In December 2020, the board of directors declared a patronage distribution in the amount of \$650,000 to be distributed to the Association's borrowers. The amount declared was based on the Association's 2020 operating results.

The United States continues to operate under a presidentially declared emergency since March 13, 2020, due to the Coronavirus Disease 2019 (also referred to as COVID-19). The Association continues during these unprecedented times to fulfill its mission to support agriculture and rural communities by providing access to reliable and consistent credit. The Association is closely monitoring its loan portfolio overall and is particularly focused on sectors that may be pressured by COVID-19 and its related economic impacts, such as food processing, dairy and beef cattle. The Association has maintained its strong portfolio monitoring and servicing practices and, if appropriate, will evaluate its allowance for loan losses as changes in outlook occur. Capital levels remained adequate to support any adversity or continuing loan demand.

Operationally, the Association continues to function as normal during these challenging times. The Association has utilized technology which has allowed personnel to work remotely and support both their families and their customer base. The Association has facilitated technology and operational changes to ensure its ability to meet borrowers needs during the uncertainty created by COVID-19, including extension to the terms of loan repayments.

The U.S. economic recovery gained some momentum during the first quarter of 2021 as vaccination rates increased, new monthly COVID-19 cases decreased, and stimulus payments were distributed across the economy. The U.S. Bureau of Economic Analysis estimated that real gross domestic product (GDP) increased at an annual rate of 4.3% in the fourth quarter of 2020. Additionally, as of April 9, 2021, the Federal Reserve Bank of Atlanta's GDP forecasting model estimates that real GDP growth during the first quarter of 2021 was about 6.0%. U.S. total nonfarm payroll employment increased by 916,000 in March 2021, and the unemployment rate decreased to 6.0%, reflecting the continued resumption of economic activity.

According to USDA's March 2021 World Agricultural Supply and Demand Estimates report, farmers are likely to receive significantly higher prices for corn, soybeans and cotton in the 2020/21 marketing year compared to the previous season. Meanwhile, the average price received by farmers for all milk is projected to decrease by about 3.10% in 2021, after decreasing slightly during 2020. Livestock prices have been volatile overall, but feeder and live cattle prices averaged higher during the first quarter of 2021 compared to the same period last year. Lumber prices have continued to be historically high as elevated demand for construction materials has persisted in recent months.

During 2021, agricultural producers may be negatively affected by several factors, including volatile commodity prices, export market disruptions, a slowing economy and weather-related challenges. The Association's loan portfolio is well-supported by industry diversification and conservative advance rates.

During the first quarter of 2021, the New Mexico agriculture economy remained sound. Moisture and precipitation varied across the state from either near to below average, with winter forage conditions considered good. Most of New Mexico is considered to be in a drought.

Loan Portfolio:

Total loans outstanding at March 31, 2021, including nonaccrual loans and sales contracts, were \$307,047,260 compared to \$293,066,480 at December 31, 2020, reflecting an increase of 4.8 percent. Nonaccrual loans as a percentage of total loans outstanding were 0.7 percent at March 31, 2021 and December 31, 2020.

The Association did not record any recoveries or charge-offs for the quarter ended March 31, 2021. The Association recorded no recoveries and \$12,030 in charge-offs for the same period in 2020. The Association's allowance for loan losses was 0.3 percent of total loans outstanding as of March 31, 2021, and December 31, 2020.

Risk Exposure:

High-risk assets include nonaccrual loans, loans that are past due 90 days or more and still accruing interest, formally restructured loans, and other property owned. The following table illustrates the Association's components and trends of high-risk assets.

	March 31, 2021		December 31, 2020	
	Amount	%	Amount	%
Nonaccrual	\$ 2,251,753	99.9%	\$ 2,097,655	95.4%
90 days past due and still accruing interest	-	0.0%	99,364	4.5%
Other property owned, net	2,775	0.1%	2,775	0.1%
Total	\$ 2,254,528	100.0%	\$ 2,199,794	100.0%

Results of Operations:

The Association had net income of \$1,121,122 for the three months ended March 31, 2021, as compared to net income of \$1,361,195 for the same period in 2020, reflecting a decrease of 17.6 percent. Net interest income was \$1,714,866 for the three months ended March 31, 2021, compared to \$2,039,988 for the same period in 2020.

	Three Months Ended			
	March 31, 2021		March 31, 2020	
	Average Balance	Interest	Average Balance	Interest
Loans	\$ 297,020,539	\$ 2,770,682	\$ 257,875,870	\$ 3,556,963
Interest-bearing liabilities	260,144,280	1,055,816	226,946,432	1,516,975
Impact of capital	\$ 36,876,259		\$ 30,929,438	
Net interest income		\$ 1,714,866		\$ 2,039,988

	2021	2020
	Average Yield	Average Yield
Yield on loans	3.78%	5.55%
Cost of interest-bearing liabilities	1.65%	2.69%
Interest rate spread	2.13%	2.86%
Net interest income as a percentage of average earning assets	2.34%	3.18%

	Three months ended:		
	March 31, 2021 vs. March 31, 2020		
	Increase (decrease) due to		
	Volume	Rate	Total
Interest income - loans	\$ 535,460	\$ (1,321,741)	\$ (786,281)
Interest expense	220,066	(681,225)	(461,159)
Net interest income	\$ 315,394	\$ (640,516)	\$ (325,122)

Interest income for the three months ended March 31, 2021, decreased by \$786,281, or 22.1 percent, from the same period of 2020, primarily due to a decrease in yields on earning assets slightly offset by an increase in average loan volume. Interest expense for the three months ended March 31, 2021, decreased by \$461,159, or 30.4 percent from the same period of 2020 due to a decrease in interest rates slightly offset by an increase in average debt volume. Average loan volume for the first quarter of 2021 was \$297,020,539, compared to \$257,875,870 in the first quarter of 2020. The average net interest rate spread on the loan portfolio for the first quarter of 2021 was 2.13 percent compared to 2.86 percent in the first quarter of 2020.

The Association's return on average assets for the three months ended March 31, 2021, was 1.46 percent compared to 1.99 percent for the same period in 2020. The Association's return on average equity for the three months ended March 31, 2021, was 9.59 percent, compared to 12.33 percent for the same period in 2020.

Liquidity and Funding Sources:

The Association secures the majority of its lendable funds from the Farm Credit Bank of Texas (the Bank), which obtains its funds through the issuance of System-wide obligations and with lendable equity. The following schedule summarizes the Association's borrowings.

	March 31, 2021	December 31, 2020
Note payable to the Bank	\$ 266,678,948	\$ 248,320,942
Accrued interest on note payable	373,381	362,159
Total	\$ 267,052,329	\$ 248,683,101

The Association operates under a general financing agreement (GFA) with the Bank. The current GFA is effective through September 30, 2023. The primary source of liquidity and funding for the Association is a direct loan from the Bank. The outstanding balance of \$266,678,948 as of March 31, 2021, is recorded as a liability on the Association's balance sheet. The note carried a weighted average interest rate of 1.64 percent at March 31, 2021. The indebtedness is collateralized by a pledge of substantially all of the Association's assets to the Bank and is governed by the general financing agreement. The increase in note payable to the Bank and related accrued interest payable since December 31, 2020, is due to the Association's increase in loan volume. The Association's own funds, which represent the amount of the Association's loan portfolio funded by the Association's equity, were \$37,817,589 at March 31, 2021. The maximum amount the Association may borrow from the Bank as of March 31, 2021, was \$306,366,649 as defined by the general financing agreement. The indebtedness continues in effect until the expiration date of the general financing agreement, which is September 30, 2023, unless sooner terminated by the Bank upon the occurrence of an event of default, or by the Association, in the event of a breach of this agreement by the Bank, upon giving the Bank 30 calendar days' prior written notice, or in all other circumstances, upon giving the Bank 120 days' prior written notice.

In 2017, the United Kingdom's Financial Conduct Authority, announced its intention to stop persuading or compelling the group of major banks that sustains LIBOR to submit rate quotations after 2021. As a result, it is uncertain whether LIBOR will continue to be quoted after 2021. We continue to analyze potential risks associated with the LIBOR transition, including financial, operational, legal, tax, reputational and compliance risks. At this time, we are unable to predict whether or when LIBOR will cease to be available or if Secured Overnight Financing Rate (SOFR) or any other alternative reference rate will become the benchmark to replace LIBOR. Because we engage in transactions involving financial instruments that reference LIBOR, these developments could have a material impact on the Association and our borrowers. Management has documented a LIBOR transition plan to address the phase out of LIBOR rates in the future, including any updates to processes and loan servicing technology.

Capital Resources:

The Association's capital position increased by \$1,132,623 at March 31, 2021, compared to December 31, 2020. The Association's debt as a percentage of members' equity was 5.68:1 as of March 31, 2021, compared to 5.53:1 as of December 31, 2020.

Farm Credit Administration regulations require the Association to maintain minimums for various regulatory capital ratios. New regulations became effective January 1, 2017, which replaced the previously required core surplus and total surplus ratios with common equity tier 1, tier 1 capital, and total capital risk-based capital ratios. The new regulations also added tier 1 leverage and unallocated retained earnings and equivalents (UREE) ratios. The permanent capital ratio continues to remain in effect, with some modifications to align with the new regulations. As of March 31, 2021, the Association exceeded all regulatory capital requirements.

Significant Recent Accounting Pronouncements:

In January 2021, the FASB issued an update whereby certain derivative instruments may be modified to change the rate used for margining, discounting, or contract price alignment. An entity may elect to apply the new amendments on a full retrospective basis as of any date from the beginning of an interim period that includes or is subsequent to March 12, 2020, or on a prospective basis to new modifications from any date within an interim period that includes or is subsequent to the date of the update, up to the date that financial statements are available to be issued. These amendments do not apply to contract modifications made or new hedging relationships entered into after December 31, 2022, and existing hedging relationships evaluated for effectiveness in periods after December 31, 2022. The Association is evaluating the impact of adoption on the Association's financial condition and its results of operations.

In March 2020, the Financial Accounting Standards Board (FASB) issued guidance entitled “Facilitation of the Effects of Reference Rate Reform on Financial Reporting.” The guidance provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships and other transactions affected by reference rate reform. The guidance simplifies the accounting evaluation of contract modifications that replace a reference rate affected by reference rate reform and contemporaneous modifications of other contracts related to the replacement of the reference rate. With respect to hedge accounting, the guidance allows amendment of formal designation and documentation of hedging relationships in certain circumstances as a result of reference rate reform and provides additional expedients for different types of hedges, if certain criteria are met. The optional amendments are effective as of March 12, 2020, through December 31, 2022. The Association is evaluating the impact of adoption on the Association’s financial condition and its results of operations.

In December 2019, the FASB issued guidance entitled “Simplifying the Accounting for Income Taxes.” This guidance eliminates certain intra period tax allocations, foreign deferred tax recognition, and interim period tax calculations. In addition, the guidance simplifies disclosure regarding capital and franchise taxes, the allocation of goodwill in business combinations, subsidiary financial statements, and other disclosures. The new guidance is intended to eliminate and/or simplify certain aspects of income tax accounting that are complex or that require significant judgment in application or presentation. The guidance becomes effective for fiscal years beginning after December 15, 2021. Early adoption of the guidance is permitted, and the Association adopted this guidance on January 1, 2020. The adoption of this guidance did not materially impact the Association’s financial condition or results of operations; nor did the guidance impact the presentation of taxes for prior periods in the year 2020 interim or year-end financial statements.

In August 2018, the FASB issued guidance entitled “Disclosure Framework — Changes to the Disclosure Requirements for Defined Benefit Plans.” The guidance modifies the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. This guidance became effective for fiscal years ending after December 15, 2020. The guidance was applied on a retrospective basis for all periods. The adoption of this guidance will not impact the Association’s financial condition or its results of operations, but did impact the employee benefit plan disclosures.

In June 2016, the FASB issued guidance entitled “Measurement of Credit Losses on Financial Instruments.” The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers this guidance was to become effective for interim and annual periods beginning after December 15, 2020, with early application permitted. In November 2019, the FASB issued an update that amends the mandatory effective date for this guidance for certain institutions. The change resulted from a change in the effective date philosophy that extends and simplifies the adoption by staggering the dates between large public entities and other entities. As a result of the change, the new credit loss standard, for those institutions qualifying for the delay, becomes effective for interim and annual reporting periods beginning after December 15, 2022, with early adoption permitted. The Association qualifies for the delay in the adoption date. The Association continues to evaluate the impact of adoption on the Association’s financial condition and its results of operations.

Relationship With the Farm Credit Bank of Texas:

The Association’s financial condition may be impacted by factors that affect the Bank. The financial condition and results of operations of the Bank may materially affect the stockholder’s investment in the Association. The Management’s Discussion and Analysis and Notes to Financial Statements contained in the 2020 Annual Report of Ag New Mexico, Farm Credit Services, ACA more fully describe the Association’s relationship with the Bank.

The annual and quarterly stockholder reports of the Bank are available free of charge, upon request. These reports can be obtained by writing to Farm Credit Bank of Texas, Corporate Communications, P.O. Box 202590, Austin, Texas 78720, or by calling (512) 483-9204. The annual and quarterly stockholder reports for the Bank are also available on its website at www.farmcreditbank.com.

The Association’s quarterly stockholder reports are also available free of charge, upon request. These reports can be obtained by writing to Ag New Mexico, Farm Credit Services, ACA, 4501 N. Prince St., Clovis, New Mexico, 88101 or calling (575) 762-3828. The annual and quarterly stockholder reports for the Association are also available on its website at www.agnewmexico.com. Copies of the Association’s quarterly stockholder reports can also be requested by e-mailing will.fisher@farmcreditbank.com.

AG NEW MEXICO, FARM CREDIT SERVICES, ACA
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES:

The Ag New Mexico, Farm Credit Services, ACA (Agricultural Credit Association), referred to as the Association, is a member-owned cooperative that provides credit and credit-related services to or for the benefit of eligible borrowers/stockholders for qualified agricultural purposes. The Association serves all counties in the state of New Mexico with the exception of San Juan County and the portion of Rio Arriba County lying west of the Continental Divide. The PCA and FLCA subsidiaries are also authorized to operate in Cochran County, Texas. In addition, the Association and Farm Credit Services of New Mexico, ACA have entered into an agreement that allows the Association to make mortgage loans in New Mexico, on a statewide basis, without obtaining territorial approval. The Association is a lending institution of the Farm Credit System (the System), which was established by Acts of Congress to meet the needs of American agriculture.

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. (GAAP) for interim financial information. Accordingly, they do not include all of the disclosures required by GAAP for annual financial statements and should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2020, as contained in the 2020 Annual Report to Stockholders.

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with generally accepted accounting principles (GAAP), except for the inclusion of a statement of cash flows. GAAP require a business enterprise that provides a set of financial statements reporting both financial position and results of operations to also provide a statement of cash flows for each period for which results of operations are provided. In regulations issued by FCA, associations have the option to exclude statements of cash flows in interim financial statements. Therefore, the Association has elected not to include a statement of cash flows in these consolidated financial statements. These interim financial statements should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2020, as contained in the 2020 Annual Report to Stockholders. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year ending December 31, 2021. Descriptions of the significant accounting policies are included in the 2020 Annual Report to Stockholders. In the opinion of management, these policies and the presentation of the interim financial condition and results of operations conform with GAAP and prevailing practices within the banking industry.

In January 2021, the FASB issued an update whereby certain derivative instruments may be modified to change the rate used for margining, discounting, or contract price alignment. An entity may elect to apply the new amendments on a full retrospective basis as of any date from the beginning of an interim period that includes or is subsequent to March 12, 2020, or on a prospective basis to new modifications from any date within an interim period that includes or is subsequent to the date of the update, up to the date that financial statements are available to be issued. These amendments do not apply to contract modifications made or new hedging relationships entered into after December 31, 2022, and existing hedging relationships evaluated for effectiveness in periods after December 31, 2022. The Association is evaluating the impact of adoption on the Association's financial condition and its results of operations.

In March 2020, the Financial Accounting Standards Board (FASB) issued guidance entitled "Facilitation of the Effects of Reference Rate Reform on Financial Reporting." The guidance provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships and other transactions affected by reference rate reform. The guidance simplifies the accounting evaluation of contract modifications that replace a reference rate affected by reference rate reform and contemporaneous modifications of other contracts related to the replacement of the reference rate. With respect to hedge accounting, the guidance allows amendment of formal designation and documentation of hedging relationships in certain circumstances as a result of reference rate reform and provides additional expedients for different types of hedges, if certain criteria are met. The optional amendments are effective as of March 12, 2020, through December 31, 2022. The Association is evaluating the impact of adoption on the Association's financial condition and its results of operations.

In December 2019, the FASB issued guidance entitled "Simplifying the Accounting for Income Taxes." This guidance eliminates certain intra period tax allocations, foreign deferred tax recognition, and interim period tax calculations. In addition, the guidance simplifies disclosure regarding capital and franchise taxes, the allocation of goodwill in business combinations, subsidiary financial statements, and other disclosures. The new guidance is intended to eliminate and/or simplify certain aspects of income tax accounting that are complex or that require significant judgment in application or presentation. The guidance becomes effective for fiscal years beginning after December 15, 2021. Early adoption of the guidance is permitted, and the Association adopted this guidance on January 1, 2020. The adoption of this guidance did not materially impact the Association's financial condition or results of operations; nor did the guidance impact the presentation of taxes for prior periods in the year 2020 interim or year-end financial statements.

In August 2018, the FASB issued guidance entitled “Disclosure Framework — Changes to the Disclosure Requirements for Defined Benefit Plans.” The guidance modifies the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. This guidance became effective for fiscal years ending after December 15, 2020. The guidance was applied on a retrospective basis for all periods. The adoption of this guidance will not impact the Association’s financial condition or its results of operations, but did impact the employee benefit plan disclosures.

In June 2016, the FASB issued guidance entitled “Measurement of Credit Losses on Financial Instruments.” The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers this guidance was to become effective for interim and annual periods beginning after December 15, 2020, with early application permitted. In November 2019, the FASB issued an update that amends the mandatory effective date for this guidance for certain institutions. The change resulted from a change in the effective date philosophy that extends and simplifies the adoption by staggering the dates between large public entities and other entities. As a result of the change, the new credit loss standard, for those institutions qualifying for the delay, becomes effective for interim and annual reporting periods beginning after December 15, 2022, with early adoption permitted. The Association qualifies for the delay in the adoption date. The Association continues to evaluate the impact of adoption on the Association’s financial condition and its results of operations.

The consolidated financial statements comprise the operations of the ACA and its wholly-owned subsidiaries. The preparation of these consolidated financial statements requires the use of management’s estimates. The results for the quarter ended March 31, 2021, are not necessarily indicative of the results to be expected for the year ended December 31, 2021. Certain amounts in the prior period’s financial statements may have been reclassified to conform to current financial statement presentation.

NOTE 2 — LOANS AND ALLOWANCE FOR LOAN LOSSES:

A summary of loans follows:

Loan Type	March 31, 2021	December 31, 2020
Production agriculture:		
Real estate mortgage	\$ 141,851,590	\$ 127,731,209
Production and intermediate term	66,525,474	73,334,998
Agribusiness:		
Processing and marketing	48,859,006	46,594,131
Farm-related business	19,424,546	17,831,009
Loans to cooperatives	3,926,341	4,462,937
Energy	8,702,266	5,052,291
Communication	8,019,236	8,039,201
Rural residential real estate	4,757,748	4,991,761
Water and waste water	3,024,944	3,038,933
Lease receivables	1,956,109	1,990,010
Total	\$ 307,047,260	\$ 293,066,480

The Association purchases or sells participation interests with other parties in order to diversify risk, manage loan volume and comply with Farm Credit Administration regulations. The following table presents information regarding the balances of participations purchased and sold at March 31, 2021:

	Other Farm Credit Institutions		Non-Farm Credit Institutions		Total	
	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold
Agribusiness	\$ 48,573,406	\$ 28,823,764	\$ -	\$ -	\$ 48,573,406	\$ 28,823,764
Production and intermediate term	22,125,051	25,326,150	-	-	22,125,051	25,326,150
Real estate mortgage	16,105,263	23,891,496	-	1,920,188	16,105,263	25,811,684
Energy	8,702,266	-	-	-	8,702,266	-
Communication	8,019,236	-	-	-	8,019,236	-
Water and waste water	3,024,944	-	-	-	3,024,944	-
Lease receivables	1,581,236	-	-	-	1,581,236	-
Rural residential real estate	-	5,322,303	-	-	-	5,322,303
Total	<u>\$108,131,402</u>	<u>\$ 83,363,713</u>	<u>\$ -</u>	<u>\$ 1,920,188</u>	<u>\$108,131,402</u>	<u>\$ 85,283,901</u>

The Association is authorized under the Farm Credit Act to accept “advance conditional payments” (ACPs) from borrowers. To the extent the borrower’s access to such ACPs is restricted and the legal right of setoff exists, the ACPs are netted against the borrower’s related loan balance. Unrestricted advance conditional payments are included in other liabilities. ACPs are not insured, and interest may be paid by the Association on such balances. Balances of ACPs were \$2,820,391 and \$361,872 at March 31, 2021, and December 31, 2020, respectively.

Nonperforming assets (including related accrued interest) and related credit quality statistics are as follows:

	March 31, 2021	December 31, 2020
Nonaccrual loans:		
Production and intermediate term	\$ 1,023,104	\$ 1,024,083
Real estate mortgage	1,007,489	845,459
Rural residential real estate	221,160	228,113
Total nonaccrual loans	<u>2,251,753</u>	<u>2,097,655</u>
Accruing loans 90 days or more past due:		
Production and intermediate term	\$ -	\$ -
Real estate mortgage	-	-
Rural residential real estate	-	99,364
Total accruing loans 90 days or more past due	<u>-</u>	<u>99,364</u>
Total nonperforming loans	<u>2,251,753</u>	<u>2,197,019</u>
Other property owned	2,775	2,775
Total nonperforming assets	<u>\$ 2,254,528</u>	<u>\$ 2,199,794</u>

One credit quality indicator utilized by the Association is the Farm Credit Administration Uniform Loan Classification System that categorizes loans into five categories. The categories are defined as follows:

- Acceptable – assets are expected to be fully collectible and represent the highest quality;
- Other assets especially mentioned (OAEM) – assets are currently collectible but exhibit some potential weakness;
- Substandard – assets exhibit some serious weakness in repayment capacity, equity and/or collateral pledged on the loan;
- Doubtful – assets exhibit similar weaknesses to substandard assets; however, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable; and
- Loss – assets are considered uncollectible.

The following table shows loans and related accrued interest as a percentage of total loans and related accrued interest receivable by loan type as of:

	March 31, 2021		December 31, 2020
Real estate mortgage			
Acceptable	98	%	98 %

Total	\$ 837,545	\$ 496,913	\$ 1,334,458	\$ 294,740,022	\$ 296,074,480	\$ 99,364

Note: The recorded investment in the receivable is the face amount increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges or acquisition costs, and may also reflect a previous direct write-down of the investment.

A restructuring of a debt constitutes a troubled debt restructuring if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. Troubled debt restructurings (TDRs) are undertaken in order to improve the likelihood of recovery on the loan and may include, but are not limited to, forgiveness of principal or interest, interest rate reductions that are lower than the current market rate for new debt with similar risk, or significant term or payment extensions.

The predominant form of concession granted for troubled debt restructuring includes extensions of terms. Other types of modifications include principal or accrued interest reductions, interest rate decreases and delayed payments, among others. At times, these terms might be offset with incremental payments, collateral or new borrower guarantees, in which case the Association assesses all of the modified terms to determine if the overall modification qualifies as a troubled debt restructuring.

As of March 31, 2021, the total recorded investment of troubled debt restructured loans was \$169,110, all of which was classified as nonaccrual with no specific allowance. Commitments to lend funds to borrowers whose loan terms have been modified in a troubled debt restructuring were \$442,016 as of March 31, 2021 and as of December 31, 2020.

The following table provides information on outstanding loans restructured in troubled debt restructurings at period end. These loans are included as impaired loans in the impaired loan table at:

	<u>Loans Modified as TDRs</u>		<u>TDRs in Nonaccrual Status*</u>	
	<u>March 31, 2021</u>	<u>December 31, 2020</u>	<u>March 31, 2021</u>	<u>December 31, 2020</u>
Real estate mortgage	\$ 169,110	\$ 169,436	\$ 169,110	\$ 169,436
Total	\$ 169,110	\$ 169,436	\$ 169,110	\$ 169,436

*represents the portion of loans modified as TDRs that are in nonaccrual status

Additional impaired loan information is as follows:

NOTE 3 —LEASES:

The components of lease expense were as follows:

	For the Three Months Ended	
	March 31, 2021	March 31, 2020
Operating lease cost	\$ 33,822	\$ 28,561
Net lease cost	\$ 33,822	\$ 28,561

Other information related to leases was as follows:

	For the Three Months Ended	
	March 31, 2021	March 31, 2020
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	\$ 33,822	\$ 28,561
Right-of-use assets obtained in exchange for lease obligations:		
Operating leases	31,832	26,889

Lease term and discount rate were as follows:

	March 31, 2021	December 31, 2020
Weighted average remaining lease term in years		
Operating leases	2.2	2.4
Weighted average discount rate		
Operating leases	3.63%	3.87%

Future minimum lease payments under non-cancellable leases as of March 31, 2021 were as follows:

	Operating Leases
2021 (excluding the three months ended 3/31/21)	\$ 91,377
2022	95,195
2023	80,872
2024	28,553
2025	-
Thereafter	-
Total	\$ 295,997

NOTE 4 — CAPITAL:

The Association's board of directors has established a Capital Adequacy Plan (Plan) that includes the capital targets that are necessary to achieve the Association's capital adequacy goals as well as the minimum permanent capital standards. The Plan monitors projected dividends, equity retirements, and other actions that may decrease the Association's permanent capital. In addition to factors that must be considered in meeting the minimum standards, the board of directors also monitors the following factors: capability of management; quality of operating policies, procedures and internal controls; quality and quantity of earnings; asset quality and the adequacy of the allowance for losses to absorb potential loss within the loan and lease portfolios; sufficiency of liquid funds; needs of an institution's customer base; and any other risk-oriented activities, such as funding and interest rate risk, potential obligations under joint and several liability, contingent and off-balance-sheet liabilities or other conditions warranting additional capital. At least quarterly, management reviews the Association's goals and objectives with the board.

Regulatory Capitalization Requirements

Risk-adjusted:	Regulatory Requirements Including Capital Conservation Buffers		As of March 31, 2021	
Common equity tier 1 ratio	7.00%		12.85%	
Tier 1 capital ratio	8.50%		12.85%	
Total capital ratio	10.50%		13.15%

An additional component of equity is accumulated other comprehensive loss, which is reported net of taxes, which is as follows:

March 31, 2021	Accumulated Other Comprehensive Loss
Nonpension postretirement benefits	<u>\$ (473,287)</u>
Total	<u><u>\$ (473,287)</u></u>
March 31, 2020	Accumulated Other
Nonpension postretirement benefits	<u>\$ (322,170)</u>
Total	<u><u>\$ (322,170)</u></u>

The Association's accumulated other comprehensive loss relates entirely to its nonpension other postretirement benefits. Amortization of prior service credits and of actuarial loss are reflected in "Salaries and employee benefits" in the Consolidated Statements of Comprehensive Income. The following table summarizes the change in accumulated other comprehensive loss for the three months ended March 31:

	<u>2021</u>	<u>2020</u>
Accumulated other comprehensive loss at January 1	\$ (479,053)	\$(326,340)
Amortization of prior service credits included		
in salaries and employee benefits	(1,121)	(1,120)
Amortization of actuarial loss included		
in salaries and employee benefits	<u>6,887</u>	<u>5,290</u>
Other comprehensive income, net of tax	<u>5,766</u>	<u>4,170</u>
Accumulated other comprehensive loss at March 31	<u><u>\$ (473,287)</u></u>	<u><u>\$(322,170)</u></u>

NOTE 5 — INCOME TAXES:

Ag New Mexico, Farm Credit Services, ACA conducts its business activities through two wholly-owned subsidiaries. Long-term mortgage lending activities are conducted through a wholly-owned FLCA subsidiary which is exempt from federal and state income tax. Short- and intermediate-term lending activities are conducted through a wholly-owned PCA subsidiary. The PCA subsidiary and the ACA holding company are subject to income tax. Ag New Mexico, Farm Credit Services, ACA operates as a cooperative that qualifies for tax treatment under Subchapter T of the Internal Revenue Code. Accordingly, under specified conditions, Ag New Mexico, Farm Credit Services, ACA can exclude from taxable income amounts distributed as qualified patronage dividends in the form of cash, stock or allocated retained earnings. Provisions for income taxes are made only on those taxable earnings that will not be distributed as qualified patronage dividends. Deferred taxes are recorded at the tax effect of all temporary differences based on the assumption that such temporary differences are retained by the institution and will therefore impact future tax payments. A valuation allowance is provided against deferred tax assets to the extent that it is more likely than not (more than 50 percent probability), based on management's estimate, that they will not be realized.

NOTE 6 — FAIR VALUE MEASUREMENTS:

FASB guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability. See Note 14 to the 2020 Annual Report to Stockholders for a more complete description.

Assets and liabilities measured at fair value on a recurring basis are summarized below:

<u>March 31, 2021</u>	<u>Fair Value Measurement Using</u>			<u>Total Fair Value</u>
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
Assets:				
Other property owned	\$ -	\$ -	\$ 2,775	\$ 2,775
<u>December 31, 2020</u>	<u>Fair Value Measurement Using</u>			<u>Total Fair Value</u>
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
Assets:				
Other property owned	\$ -	\$ -	\$ 2,775	\$ 2,775

Valuation Techniques

As more fully discussed in Note 14 to the 2020 Annual Report to Stockholders, authoritative guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following represent a brief summary of the valuation techniques used for the Association's assets and liabilities. For a more complete description, see Notes to the 2020 Annual Report to Stockholders.

Loans Evaluated for Impairment

For certain loans individually evaluated for impairment under impairment guidance, the fair value is based upon the underlying collateral since the loans are collateral-dependent loans for which real estate is the collateral. The fair value measurement process uses independent appraisals and other market-based information, but in many cases, it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral, and other matters. As a result, these fair value measurements fall within Level 3 of the hierarchy. When the value of the real estate, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established.

Other Property Owned

Other property owned is generally classified as Level 3 of the fair value hierarchy. The process for measuring the fair value of the other property owned involves the use of independent appraisals and other market-based information. Costs to sell represent transaction costs and are not included as a component of the asset's fair value. As a result, these fair value measurements fall within Level 3 of the hierarchy.

NOTE 7 — EMPLOYEE BENEFIT PLANS:

The following table summarizes the components of net periodic benefit costs of nonpension other postretirement employee benefits for the three months ended March 31:

	<u>Other Benefits</u>	
	<u>2021</u>	<u>2020</u>
Service cost	\$ 6,322	\$ 3,250
Interest cost	11,385	12,243
Amortization of prior service credits	(1,121)	(1,120)
Amortization of net actuarial loss	6,887	5,290
Net periodic benefit cost	<u>\$ 23,473</u>	<u>\$ 19,663</u>

The Association's liability for the unfunded accumulated obligation for these benefits at March 31, 2021, was \$1,656,149 and is included in other liabilities on the balance sheet.

The components of net periodic benefit cost other than the service cost component are included in the line item "other components of net periodic postretirement benefit cost" in the income statement.

The structure of the District's defined benefit pension plan is characterized as multiemployer since the assets, liabilities, and cost of the plan are not segregated or separately accounted for by participating employers (Bank and associations). The Association recognizes its amortized annual contributions to the plan as an expense. The Association previously disclosed in its financial statements for the year ended December 31, 2020, that it expected to contribute \$57,439 to the District's defined benefit pension plan in 2021. As of March 31, 2021, the full contribution has been made. The Association presently does not anticipate additional contributions to fund the defined benefit pension plan in 2021.

NOTE 8 — COMMITMENTS AND CONTINGENT LIABILITIES:

The Association is involved in various legal proceedings in the normal course of business. In the opinion of legal counsel and management, there are no legal proceedings at this time that are likely to materially affect the Association.

NOTE 9 — SUBSEQUENT EVENTS:

The Association has evaluated subsequent events through May 7, 2021 which is the date the financial statements were issued. There are no other significant events requiring disclosure as of May 7, 2021.
